

# SECURE CLOUD-BASED IDENTITY MANAGEMENT

[echots.com](https://echots.com) | [sales@echots.com](mailto:sales@echots.com) | 415.857.3246

## GOAL:

Enable a company to use cloud-based technology to protect data assets and identities of workforce and customers, with safe connections between users and applications, systems, and information.

## SOLUTION:

Deploy a cloud-based identity access management solution that is robust, scalable, extensible and industry accepted.

## RESULTS:

- Protect Cloud Applications from inappropriate access.
- Improve onboarding and offboarding employee processes by automating provisioning & deprovisioning of cloud applications.
- Manage access of shared resources without exposing credentials.
- Seamless user experience.
- Reduce login related issues.

**PARTNERSHIP:** ECHO has been a partner with Okta since 2017 providing our clients with the best of breed single sign-on solution.

Digital transformation for small businesses and non-profit organizations.
